

PLAYSAFE™

PLAYGROUND RUBBER SAFETY SYSTEM

Poured-In-Place

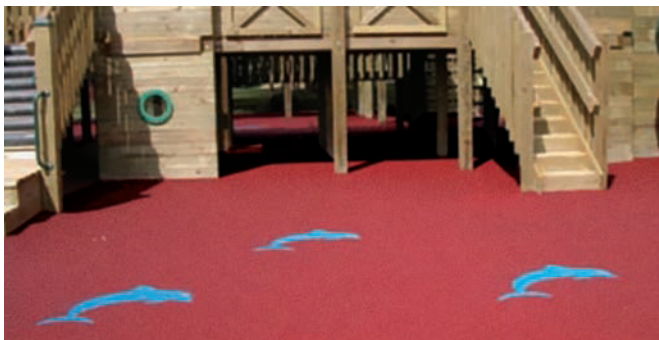

PLAYSAFE Playground Rubber Safety System is a seamless play area safety surface consisting of recycled tire rubber granuals combined with a highly sophisticated polyurethane binder.

PLAYSAFE provides a safe play area surface which is durable, resilient, colourful and maintenance free. Designed specially to help prevent children from serious injuries while in a playground area.

PLAYSAFE has been created by our company which has dedicated itself to the highest product quality and designs, best warranty, and most competitive pricing in the industry.

PLAYSAFE surface thickness range between 30mm to 100mm and fall height to be determined under the current C.S.A. standards.
